RV-12 Interior Packages

DRESS UP YOUR RV-12!

Van's and Flightline Interiors now offers a three-part interior package for the RV-12 cabin. This very classy interior package includes sidewall trim panels, cockpit carpet and baggage compartment trim options that can be ordered together or separately, and in colors matching your seat cushions. All interior pieces are installed with Super Adhesive Velcro for easy inspection and installation. Includes full instructions for installation. Interior is constructed with FAR 25.853 materials. If all options are selected this will add approx. 12lb to the empty weight of your airplane with a corresponding reduction in useful load.

Photos are of the Trim Package installed on 'New Blue' RV-12.

Three packages are available:

- **Carpets:**

Part Number **CA-00100 12 CARPET**

Covers the floor area from the firewall aft to the main spar bulkhead. Includes rubber mats for high wear areas on steps and under rudder pedals. Foam included to level the floor. All edges bound.

- **Sidewall Panels:**

Part Number **CA-00101 12 SIDEWALLS**

Includes elastic top pockets (2 per side), screening for air vents, and armrest padding.

- **Baggage Compartment:**

Part Number **CA-00102 12 BAGGAGE** Covers the tank, sidewalls and rear bulkhead. **EXPERIMENTAL** can be embroidered on bulkhead portion. Includes opening for fuel level window and pocket on sidewall.

Use the RV-12 E-LSA kit order form to select packages and colors.

The form is located at:
